

DIANA MARIE DE JESUS

Junior UX/UI Designer

A naturally curious mind driven by empathetic listening and a passion for accessibility. I bring to digital product design the same human-centered care and interpersonal skills cultivated daily in customer-facing roles.

PROJECTS

Acumen Academy | Website Redesign

End-to-end website redesign for Acumen Academy, a school for social entrepreneurs, focused on making navigation clearer and more intuitive for prospective students and users.

- Conducted quantitative and qualitative research (heuristic evaluation and user surveys), developing 3 User Personas and User Journey maps to uncover navigation pain points and conversion opportunities.
- Restructured the Information Architecture, producing 12+ mid-fi wireframes and an interactive 40+ screen Figma prototype powered by responsive components and a scalable design system.
- Performed a WCAG accessibility audit (resolving 10+ barriers) and validated the solution through 5 remote usability test sessions (Think-Aloud protocol), driving 5 key iterations on navigation and live support.

IncluDO | Logo & Brand Identity + Copywriting Blog Post

Brand identity and content design for IncluDO, a social impact venture addressing inequality, positioning it as a trusted benchmark in traditional vocational craft training.

- Crafted the complete visual identity: designed the logo, a custom 5+ icon set, color palette, and 8+ social media assets to establish a cohesive and trustworthy brand presence.
- Defined the UX writing strategy and authored a long-form blog post applying Cialdini’s principles of persuasion to maximize reader engagement and brand loyalty.

WORK EXPERIENCE

Customer Service & Operations | Primark & McDonald's

2022, 2024/2025 | Bologna, Lucca (IT)

Part-time customer-facing roles held alongside UX/UI Design studies, focused on client support and fast-paced team operations.

- **Active listening & empathy:** Quickly identifying and addressing customer and team needs in dynamic, high-volume environments.
- **Adaptability & teamwork:** Collaborating with team members on sales floor organization and maintaining service efficiency during peak rush hours.

SKILLS

UX Research & Design: User Research, Quantitative & Qualitative Analysis, Competitor Analysis, Usability Testing, User Personas & User Journey Mapping, Information Architecture, Wireframing (Low/Mid/Hi-Fi).

UI & Visual: Design Systems, Interactive Prototyping (Figma), Responsive Web Design, Design Handoff.

Methodologies & Standards: WCAG 2.1 Accessibility Guidelines (A11y), Heuristic Evaluation (Nielsen), UX Writing, Semantic HTML5 & CSS3.

TOOLS

Design & Prototyping: Figma, Adobe Creative Cloud (Illustrator, Photoshop, InDesign).

Testing & Accessibility: UXArmy, Stark, Color Contrast Checker.

Code & AI: VS Code, GitHub, HTML/CSS, Google Antigravity, Generative AI Tools (ChatGPT, Claude, Gemini).

EDUCATION

start2impact University

Master in UX/UI Design e AI Agents

Università of Ferrara

Bachelor's Degree in Business

Administration and Management
