

DIANA MARIE DE JESUS

Junior UX/UI Designer

A "full-time curious learner" driven by empathetic listening and a passion for accessibility. I bring to digital design the same human-centered care and interpersonal skills cultivated daily in customer-facing roles.

PROJECTS

Acumen Academy | Website Redesign

End-to-end website redesign for Acumen Academy, a school for social entrepreneurs, aimed at delivering a clearer, more intuitive navigation experience for end users.

- Conducted quantitative and qualitative research (heuristic evaluation and surveys), developing 3 User Personas and User Journey maps to identify navigation pain points and conversion opportunities.
- Restructured Information Architecture by producing 12+ mid-fi wireframes and an interactive Figma prototype of 40+ screens featuring responsive components and a scalable Design System.
- Performed a WCAG accessibility audit (resolving 10+ barriers) and validated the prototype through 5 remote Think-Aloud usability test sessions, delivering 5 key iterations on navigation and live support.

IncluDO | Logo & Brand Identity + Copywriting Blog Post

Brand identity creation for IncluDO, a fictional social impact venture combating inequality, positioning it as a go-to benchmark in traditional craft vocational training.

- Designed the complete visual identity: logo, custom icon set (5+ icons), color palette, and 8+ social assets to establish a consistent, credible brand presence.
- Defined the UX Writing strategy and authored a blog post leveraging Cialdini's persuasion principles to maximize reader emotional engagement and customer loyalty.

WORK EXPERIENCE

Sales & Food Service Assistant | Primark & McDonald's

2022, 2024/2025 | Bologna, Lucca (IT)

Part-time customer-facing roles held alongside UX/UI Design studies, with a focus on customer support.

- **Active listening & empathy:** Quickly understanding customer and team needs in fast-paced, high-volume environments.
- **Flexibility & teamwork:** Adaptability and team collaboration in sales floor organization and service optimization during peak rush hours.

SKILLS

UX Research & Design: User Research, Quantitative & Qualitative Analysis, Competitor Analysis, Usability Testing, User Personas & User Journey Mapping, Information Architecture, Wireframing (Low/Mid/Hi-Fi).

UI & Visual: Design Systems, Interactive Prototyping (Figma), Responsive Web Design, Design Handoff.

Methodologies & Standards: WCAG 2.1 Guidelines (A11y), Heuristic Evaluation (Nielsen), UX Writing, Semantic HTML5 & CSS3.

TOOLS

Design & Prototyping: Figma, Adobe Creative Cloud (Illustrator, Photoshop, InDesign).

Testing & Accessibility: UXArmy, Stark, Color Contrast Checker.

Code & AI: VS Code, GitHub, HTML/CSS, Google Antigravity, Generative AI Tools (ChatGPT, Claude, Gemini).

EDUCATION

start2impact University

Master in UX/UI Design & AI Agents

University of Ferrara

Bachelor's Degree in Business Administration and Management
